GREEN ATLANTIC PVC

Effective January 1, 2026
Applies to Products purchased on or after this date

Limited Warranty and Care Guide

Premium PVC sealed edge trim boards, sheets and mouldings

White PVC

30 Years

Limited warranty on white trim boards, sheets and mouldings.

Black PVC

10 Years

Limited warranty on black trim boards, sheets and mouldings.

1. What this warranty covers

Green Atlantic PVC, LLC ("Green Atlantic," "we") warrants to the original purchaser that Green Atlantic PVC trim boards, sheets and mouldings, and products we fabricate from them such as corner boards, beadboard, soffit and column wraps (the "Products"), will be free from manufacturing defects that cause the Product to rot, split, delaminate, or be damaged by fungal decay or termites, when the Product is installed, used and maintained as this guide and our published installation instructions require.

The warranty period runs from the date of original purchase:

- **White PVC:** thirty (30) years.
- **Black PVC:** ten (10) years.

2. What we will do

If a Product fails to conform to this warranty, Green Atlantic will, at its option, either supply replacement Product for the defective portion or refund the original purchase price paid for the defective portion, in each case at the percentage shown below for the year in which the claim is made.

Year of claim	White PVC	Black PVC
Years 1 to 5	100%	100%
Years 6 to 10	50%	50%
Years 11 to 30	25%	Not covered

Replacement Product carries the remaining term of the original warranty. Green Atlantic does not pay for labor, installation, removal, disposal, painting, freight or taxes. This replacement or refund is the sole and exclusive remedy under this warranty.

3. Installation requirements

Products must be installed according to our published Trim and Moulding Installation Guide, Intertek Code Compliance Research Report CCRR-0420 and all applicable building codes. In particular:

- **Fasteners.** Use stainless steel or hot-dipped galvanized fasteners designed for wood trim and siding, with blunt points and full round heads, long enough to penetrate the wood substrate at least 1 1/2". Adhesive alone, without mechanical fasteners, is not an acceptable installation.
- **Backing.** Except for soffit installed as permitted by CCRR-0420, install trim over solid backing. Install fascia over an approved structural sub-fascia.
- **Expansion and contraction.** PVC moves with temperature, mostly along its length. Gap butt joints to suit the temperature at installation, glue scarf and miter joints with a PVC cement, and provide expansion joints on runs longer than 24 feet, as described in the installation guide.
- **Approved uses.** Corner boards, soffit, fascia, battens, door pilasters, frieze boards, nonload-bearing rake boards, architectural millwork, and door and window trim.

4. Care and maintenance

Keeping this warranty in force requires the following care:

- **Cleaning.** Wash with a soft cloth or nylon brush and mild dish soap and water. A melamine sponge removes most scuffs. Do not use abrasive cleaners, solvent-based cleaners such as acetone or paint thinner, or a pressure washer at high pressure; these damage the sealed surface.
- **Coastal installations.** Black PVC within five miles of a coastline must be rinsed with fresh water at least twice a year to remove salt deposits.
- **Painting white PVC.** Paint is not required. If you paint, use a 100% acrylic latex exterior paint with a Light Reflective Value (LRV) of 55 or higher. Painting white PVC a darker color (LRV below 55) voids this warranty.
- **Painting black PVC.** Black PVC is pigmented through and needs no paint. If you repaint it, use a heat-reflective paint formulated for vinyl and PVC in a matching black.

5. What this warranty does not cover

- Improper installation, handling or storage, including failure to follow our installation guide, CCRR-0420 or local building codes.
- Movement, settling or failure of the structure or of the materials the Product is fastened to.
- Use outside the approved uses above, including load-bearing or structural use, direct ground contact, or continuous exposure to standing water.
- Distortion, melting or sagging caused by concentrated solar reflection, such as sunlight reflected from energy-efficient (Low-E) windows. This is an environmental condition, not a manufacturing defect.
- Damage from heat sources, including grills, fire pits, heaters, dryer and exhaust vents, and fire.
- Damage from painting or coatings that do not meet Section 4, or from abrasive cleaners, solvents or high-pressure washing.
- Normal weathering, including surface dulling, dirt pickup, and mold or mildew growing on surface dirt.
- Acts of nature and accidents, including flood, hurricane or tornado, hail, lightning, earthquake, impact and vandalism.
- Expansion and contraction within normal limits when the Product has not been gapped and fastened as our installation guide requires.

- The appearance of edges that are cut, ripped or milled after the Product leaves our facility.
- Product sold as seconds, off-grade or "as is," and damage that occurs in shipping, which must be claimed with the carrier.

6. How to make a claim

Notify us in writing within 30 days of discovering the problem, and within the warranty period, at **info@greenatlanticpvc.com**. Include:

- Proof of purchase showing the date and the Green Atlantic Product purchased.
- The installation address and date of installation.
- Photographs of the affected Product and a short description of the problem.

Do not remove, replace or repair the affected Product before we have reviewed the claim, unless we approve it in writing. We may ask to inspect the installation or to receive a sample. Your Green Atlantic dealer can help you prepare a claim.

7. Who is covered

This warranty is extended only to the original purchaser and is not transferable. It applies to Products purchased on or after January 1, 2026 and installed in the United States. Products purchased earlier are covered by the warranty in effect on the date of purchase.

8. Limitations

This limited warranty is the only express warranty Green Atlantic gives for the Products. To the extent permitted by law, any implied warranty, including any implied warranty of merchantability or fitness for a particular purpose, is limited to the duration of this warranty. Green Atlantic is not liable for incidental, special or consequential damages. Some states do not allow limits on how long an implied warranty lasts or the exclusion of incidental or consequential damages, so these limits may not apply to you. This warranty gives you specific legal rights, and you may have other rights that vary from state to state.

No dealer, distributor, contractor or representative may change or add to this warranty. Green Atlantic may update this warranty for future purchases; the version in effect on the date of purchase applies.
